About the Author

Dr Tony Zalewski is an experienced security and public safety specialist. He holds four degrees from Australian universities in law, criminology and the social sciences.

As a qualified trainer Tony has coached many security and public safety specialists across most industry and professional sectors, whether public or private.

As a judicially recognised expert, he has also provided expert advice and evidence in some of Australia's larger personal injury cases on security and safety.

Tony brings a rare blend of practical real-world experience and high-end theoretical knowledge to this essential publication.

AN INTRODUCTION TO OPERATIONAL SECURITY RISK MANAGEMENT

DR TONY ZALEWSKI

About the Book

This January 2019 published book has been written for anyone with an interest or responsibility in security, safety and risk. It provides a framework for effective security risk management through its 9 Chapters:

1. About Operational Security Risk Management
2. Consultants as a Security Resource
3. Operational Security Systems
4. The Security Risk Framework
5. People and Security Systems
6. Legal Issues
7. Occupational Violence and Aggression
8. Emergencies & Critical Incidents
9. The Future of Operational Security Risk Management

This book is an essential resource. It supplements various guidelines and standards on the subject.
